HCL Domino 2026 Proven Foundation. Intelligent Future.

HCL Domino

HCL Domino 2026

Proven Foundation. Intelligent Future.

The latest HCL Domino 2026 release brings together a modernized user experience, AI-powered productivity and certified security, all on the trusted platform that already runs millions of business-critical applications.

Core Benefits of HCL Domino 2026

Enhanced UX

Experience a refreshed, intuitive interface with cleaner visuals, reorganized elements, and emoticon support, enhancing usability and communication. Users can now enjoy a cohesive experience across the Domino environment with the latest server updates.

AI-Productivity with RAG-integration

HCL Domino 2026 augments Domino IQ with Retrieval-Augmented Generation (RAG), enabling it to securely search, analyze, and synthesize answers from your organization's previously less accessible institutional knowledge stored in its Domino databases.

Trusted Security and Sovereign Collaboration

HCL Domino IQ delivers true Sovereign AI in practice by running a trusted, local LLM directly within your infrastructure. With BSI IT-Grundschutz-certified collaboration and phishing-resistant Passkeys, you gain a highly secure environment that complies with the world's strictest regulatory standards.

Key Highlights

HCL Domino IQ with RAG

With the introduction of RAG, HCL Domino IQ can now "read" and reference your Domino business data to provide context-aware answers without exposing any of your sensitive data.

Intelligent Outcomes: Leverage your existing Domino databases (.nsf files) as RAG source databases.

Security & Reader Names: The AI will only "see" and summarize data that the specific user has permission to access while respecting the existing Domino security model.

Optimized for NVIDIA GPU: HCL Domino IQ is optimized for NVIDIA GPU support to handle high-performance inference and RAG indexing locally.

Total Sovereignty: All processing, from embedding to final generation, happens on your infrastructure, with no data shared externally.

Modern Client Experience

Experience a fresh interface with clean visuals, improved usability, and consistent design with HCL Domino 2026

Reorganized elements and cleaner typography for improved usability and navigation

Emoticon support to enhance everyday communication

Enchanted design model ensuring consistent imagery and better accessibility

What's New in HCL Domino 2026

Modernized UI. AI-Powered Productivity. Certified Security.

Key Business Features	Benefits
HCL Domino IQ	Maintain data privacy and reduce AI-related risks by leveraging offline LLMs.
Access apps anywhere with Nomad	Modernize applications with Nomad and save time by using Domino apps in the browser or on a phone, without any rewrites.
Citizen development with Domino Leap	An unlimited Domino Leap entitlement enables business users to solve their workflow challenges without IT support.
Sametime read receipts and mobile notifications	Get real-time visibility into message delivery and persistent alerts across devices so you don't miss a time-critical update.
Certified for government-grade security	With BSI IT-Grundschutz standards for ISO 27001 compliance, you can meet the highest security requirements without compromising innovation or sovereignty, even in highly-regulated industries.
ClamAV support	HCL Domino now supports ClamAV for local antivirus protection, while maintaining its sovereign architecture.
Meeting transcripts	Save time and never miss a key point with automatic transcripts for every recorded meeting.
Domino license dashboard	Gain clear visibility into license usage and entitlements for better compliance, planning, and cost control.

Key Technical Features	Benefits
Enterprise Single Sign-On with OIDC	Reduced complexity and configuration time for admins through OIDC integration with enterprise identity systems and offering seamless SSO.
Domino server auto update	Lower admin time and risk through automated Domino server updates across your environment.
Enhanced security ClamAV	Enhanced email security with ClamAV antivirus protection on the Domino server, improving scanning capabilities.
Authenticate securely without a password	Faster access for users, fewer IT tickets, and reduced risk of hacking with secure, phishing-resistant passkey authentication.
Faster HCL Notes Client installation with enhanced user experience	Reduced Windows installation time by up to 80%. Improved user experience through reorganized interface elements and redrawn, consistent imagery aligned with the enchanted design model.
Security information & event management	Time savings during security incidents with best practices and guidance for using SIEM tools, such as Splunk, with Domino and Sametime.
Modern tools for developers	Greater development productivity and higher-performing apps with Java 21 and Eclipse updates, saving time.
Admin tasks in AdminCentral	Reduced admin time with a rowser-based interface for managing servers and users
Non-containerized Sametime Chat install	Faster and easier deployment of Sametime Chat on Microsoft Windows server environments by 50%.

Keep Your Apps. Upgrade Your Experience.
