

LICENSE INFORMATION DOCUMENT

Program Name:

HCL Connections 8.0 CR15
HCL Connections for Extranet 8.0 CR15
HCL Connections for Intranet & Extranet 8.0 CR15
HCL Connections Engagement Center 8.0 CR15

The following are included at no additional cost as add-ons with the Program:

HCL Connections Component Pack 8.0 CR15 (add-on)
HCL Connections Customizer Lite 8.0 CR15 (add-on)

The following are included at no additional cost as plug-ins with the Program:

HCL Connections Plug-in for Mac
HCL Connections Desktop Plug-ins for Microsoft Windows
HCL Connections Add-In for Microsoft Outlook

The following terms apply to the use of the Program:

Definitions:

Licensee. For the purposes of this License Information Document, Licensee shall also mean Customer, an End User or other holder of an entitlement to which the License Information Document relates.

Limited use right

As described in the HCLSoftware Master License Agreement available at: <https://www.hcl-software.com/resources/master-agreements> or the applicable agreement between HCLSoftware and Licensee ("MLA") and this License Information Document, HCLSoftware grants Licensee a limited right to use the Program. This right is limited to the level of Authorized Use defined in License Metric below or other specified level of use, paid for by Licensee and evidenced by the proof of entitlement. Licensee's use may also be subject to other restrictions as prescribed in this License Information Document.

Supporting Programs

Supporting programs are additional software provided to Licensee to support the operation and functionality of the Program ("Supporting Programs"). Licensee is authorized to install and use the Supporting Programs listed below in accordance with the license grant in the Master License Agreement, the relevant Order or such other relevant agreement for the Program only. The Supporting Programs may not be used for any other purpose.

A Supporting Program may be subject to the terms of a separate License Information Document (published here: <https://www.hcl-software.com/resources/license-agreements> and those terms, if any, shall also apply to the use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the terms of the Supporting Program. Sufficient entitlements to the Program must be obtained, as a whole, to cover installation and use of all of the Supporting Programs unless separate entitlements are provided within this License Information document. When Licensee's right to use the Program expires or terminates, Licensee must discontinue use, destroy or promptly return all copies of the Supporting Programs to HCLSoftware or the party from whom the Program was acquired. If use of the Supporting Programs is required beyond the limits of the Proof of Entitlement please contact a HCLSoftware sales representative or the relevant third party to obtain the appropriate license.

The following are Supporting Programs licensed with the Program:

- IBM DB2 Enterprise Server Edition
- IBM Security Directory Integrator Identity Edition
- IBM Security Verify Directory
- IBM WebSphere Application Server Network Deployment
- HCL Leap
- HCL Connections Docs

The following restrictions apply to the use of the Supporting Programs:

Notwithstanding any provision in this License Information document, Licensee is not permitted to use any of the following components or functions of the identified Supporting Program:

- pureScale clustering technology (of IBM DB2 Enterprise Server Edition)
- SQL Replication (of IBM DB2 Enterprise Server Edition)
- IBM WebSphere MQ 8.0 (of IBM DB2 Enterprise Server Edition)
- IBM Security Directory Server Proxy Server and White Pages application
- Pass-through authentication (of IBM Security Directory Server)
- Ability to record last successful authentication time stamp in user entries (of IBM Security Directory Server)
- Advanced password policy rules (of IBM Security Directory Server)
- IBM WebSphere eXtreme Scale (of IBM WebSphere Application Server)
- Editor Application (of HCL Connections Docs)
- Editor Extension (of HCL Connections Docs)
- Editor Proxy (of HCL Connections Docs)

Redistributables

The Program may include third party re-distributable components ("**Redistributable Code**") which Licensee is authorized to install use and redistribute for its own internal business purposes or where permitted and as relevant, as part and in support of Licensee's application. Such use shall be in accordance with any applicable third party license terms and conditions. When Licensee's right to use the Program expires or terminates and unless otherwise agreed to by the Parties in the MLA, Licensee must discontinue use, destroy or promptly return all copies of the Redistributable Code to HCLSoftware.

Source Components and Sample Materials

The Program may include some components in source code form ("Source Components") and other materials identified as "Sample Materials" Licensee may copy and modify Source Components and Sample Materials for internal use only provided such use is within the limits of the license rights under this License Information document and Agreement, provided however that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. HCLSoftware provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Program-unique Terms

Additional grant of license:

(A) Terms applicable to HCL Connections for Extranet 8.0 CR15:

Licensee may permit users who are not employed by, paid by, or acting on behalf of Licensee or Licensee's Affiliates (as defined in the MLA) to access and use the Program ("**External User**") in accordance with the license grant in the MLA and subject to the conditions listed in Connecting with external users - HCL Connections Help Centre (hcltechsw.com).

Users who are employed by, paid by, or acting on behalf of Licensee ("**Internal User**") may access the content, information and applications which are made available to External Users.

(B) Terms applicable to HCL Connections for Intranet & Extranet 8.0 CR15:

Licensee may permit Internal Users and External Users to access and use the Program in accordance with the license grant in the MLA and subject to the conditions listed in Connecting with external users - HCL Connections Help Center (hcltechsw.com).

(c) **HCL Connections Engagement Center v2 includes access to a new WebEngine:** Usage of this component is subject to the following restrictions:

- i. **Integration Scope:** The WebEngine component is licensed exclusively to support the creation and rendering of Intranet Dashboards and related integrations within the HCL Connections environment
- ii. **Access Restrictions:** Capabilities provided by the WebEngine may only be accessed, managed, and presented through HCL Connections interfaces.
- iii. **Third-Party Limitation:** The WebEngine component may not be accessed, called, or utilized by any third-party applications, external web tools, or standalone APIs outside of the HCL Connections ecosystem. Support and updates for the WebEngine are provided solely through the HCL Connections Engagement Center entitlement.

Metrics:

The following units of measure may apply to Licensee's use of the Program:

“Authorized User”

An Authorized User is a unique person who is given access to the Program. The Program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the Program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User given access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

The Authorized User entitlement includes access for Guest Users to Program servers deployed under the Authorized User entitlement. Only an Authorized User may provide Guest Users access to the Program. For the avoidance of doubt, Guest Users may use the Program in accordance with the license grant in the MLA and subject to the conditions listed in Connecting with external users - HCL Connections Help Center (hcltechsw.com). The number of Guest Users shall not be used to determine the number of entitlements required for the Program.

“Guest User”

A Guest User is a user who:

- (a) is not employed by, paid by, or acting on behalf of Licensee or Licensee's Affiliates (as defined in the MLA), who is given access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) without verification of the user's identity (**“Anonymous Guest”**), or
- (b) is not employed by, paid by, or acting on behalf of Licensee or Licensee's Affiliates (as defined in the MLA), who is given access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) after verification of the user's identity (**“Authenticated Guest”**).

“Processor Value Unit” or “PVU”

A PVU is a unit of measure used to differentiate licensing of Programs on distributed processor technologies (defined by processor vendor, brand, type and model number). HCLSoftware defines a processor, for purposes of PVU-based licensing, to be each processor core on a chip (socket). The number of PVU entitlements required is based on the processor technology and the number of processors made available to the Program as set out here <https://www.hcl-software.com/resources/license-agreements/pvu-license>
