Future-Proofing Operations: **HCL Domino Modernisation with GroupWave**

HCL **Domino**

With GroupWave, Skeyes modernised its HCL Domino environment to meet new security, authentication, and resilience requirements—reaffirming Domino as a strategic platform for the next five years.

Customer: **Skeyes** | Partner: **GroupWave** | Industry: **Aviation** | Region: **Belgium** | Products: **HCL Domino**

The Challenge: Modernising a mission-critical Domino environment

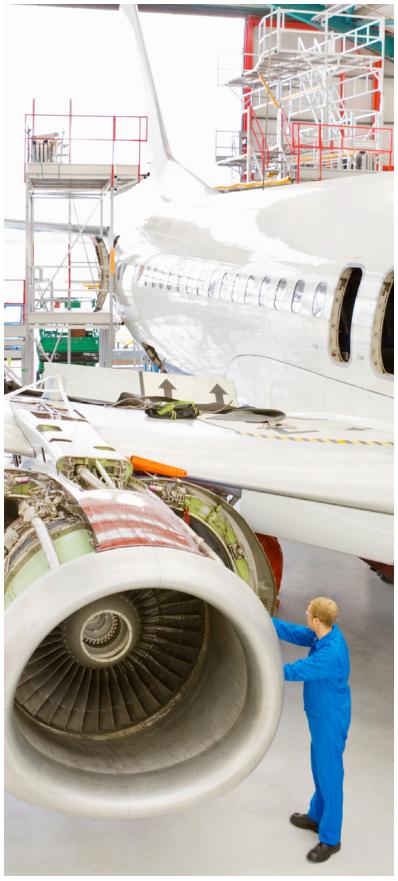
As Belgium's national air navigation service provider, Skeyes depends on HCL Domino to support mission-critical applications. When new Chief Security Officer benchmarks were introduced, the existing Domino R8 environment required modernisation to address stronger authentication, centralised access management, operational resilience, and security gaps such as missing HTTPS and siloed passwords.

The Solution: Unlocking modern Domino capabilities with GroupWave

Skeyes partnered with GroupWave, an HCLSoftware Business Partner, to modernise its Domino platform. GroupWave implemented SAML-based Single Sign-On with Microsoft Active Directory integration, deployed a high-availability cluster with automatic failover, and enabled Domino REST APIs to support future enterprise integrations.

"Technology is something we review regularly, and HCL Domino is a strategic choice for the next five years. With the right support, the platform stays competitive. Developments happen quickly, the ROI is high, and maintenance is minimal."

— **Wilfried Ombelets**, Senior Software Developer, Skeyes



The Results: Secure, reliable, future-ready

- 100% compliance with new CSO security benchmarks
- Seamless Single Sign-On using Microsoft credentials
- High availability with automatic failover and zero downtime during updates
- REST API integration enabling future extensibility
- HCL Domino reaffirmed as Skeyes' strategic platform for the next five years

About skeyes

Skeyes is Belgium's autonomous public company responsible for the safety and efficiency of air navigation in Belgian airspace and at its airports.

About GROUP WAVE

GroupWave is your one stop shop for all your IT needs. We use HCL Domino components to build tailor-made software solutions for your business.

About HCLSoftware

HCL Software is a global leader in software innovation, dedicated to powering the Digital+ Economy. We develop, market, sell, and support transformative solutions across business and industry, intelligent operations, total experience, data and analytics, and cybersecurity. Built on a rich heritage of pioneering spirit and unwavering commitment to customer success, we deliver best-in-class software products that empower organizations to achieve their goals. Our core values of integrity, inclusion, value creation, people centricity, and social responsibility guide everything we do. HCL Software serves more than 20,000 organizations, including a majority of the Fortune 100 and almost half of the Fortune 500.
