

LICENSE INFORMATION DOCUMENT

Program Name:

HCL Domino Complete Collaboration 14.5.1 (Term License)

The Program is provided in two models with separate entitlement requirements:

- HCL Domino Complete Collaboration Business Edition 14.5.1 (“CCB” or the “Program”)
- HCL Domino Complete Collaboration External Users 14.5.1
a Program add-on (“CCX”)

The following terms apply to the use of the Program:

Definitions:

Licensee. For the purposes of this License Information Document, Licensee shall also mean Customer, an End User or other holder of an entitlement to which the License Information Document relates.

Limited use right

As described in the HCLSoftware Master License Agreement available at: <https://www.hcl-software.com/resources/master-agreements> or the applicable agreement between HCLSoftware and Licensee (“MLA”) and this License Information Document, HCLSoftware grants Licensee a limited right to use the Program. This right is limited to the level of Authorized Use defined in License Metric below or other specified level of use, paid for by Licensee and evidenced by the proof of entitlement. Licensee's use may also be subject to other restrictions as prescribed in this License Information Document.

Supporting Programs

Supporting programs are additional software provided to Licensee to support the operation and functionality of the Program (“Supporting Programs”). Licensee is authorized to install and use the Supporting Programs listed below in accordance with the license grant in the Master License Agreement, the relevant Order or such other relevant agreement for the Program only. The Supporting Programs may not be used for any other purpose.

A Supporting Program may be subject to the terms of a separate License Information Document (published here: <https://www.hcl-software.com/resources/license-agreements> and those terms, if any, shall also apply to the use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the terms of the Supporting Program. Sufficient entitlements to the Program must be obtained, as a whole, to cover installation and use of all of the Supporting Programs unless separate entitlements are provided within this License Information document. When Licensee's right to use the Program expires or terminates, Licensee must discontinue use, destroy or promptly return all copies of the Supporting Programs to HCLSoftware or the party from whom the Program was acquired. If use of the Supporting Programs is required beyond the limits of the Proof of Entitlement, please contact an HCLSoftware sales representative or the relevant third party to obtain the appropriate license.

The following are Supporting Programs licensed with the Program:

- HCL Domino Enterprise Client Access
- HCL Domino Leap
- HCL SafeLinx
- HCL Sametime (limited chat capabilities, not including meetings)

The following restrictions apply to the use of the Supporting Programs:

Notwithstanding any provision in this License Information document, Licensee is permitted to use only the following components or functions of the identified Supporting Program:

- The following Supporting Programs of HCL Domino Leap cannot be used:
 - HCL Link
- HCL Sametime (limited chat capabilities, not including meetings) is described in the “Sametime versus Sametime Premium” section of the HCL Sametime Administration Guide which is located here: <https://help.hcl-software.com/>.

Software Development Kit

If the Program includes a Software Development Kit ("SDK"), the terms and conditions of this paragraph apply solely for the use of the SDK. The SDK may include software, APIs and associated documentation. The SDK is provided solely for Licensee's internal use to develop software that enables the integration of third party software or hardware with the Program, or to develop software that functions with the Program, such as an agent. Licensee's use of the SDK is restricted solely to enhance Licensee's internal use of the Program. No distribution rights of any kind are granted to Licensee regarding the Program. In addition to the limitations on use set forth in the MLA and License Information Document, Licensee may not reproduce, disclose, market, or distribute the SDK or the documentation or any applications containing any executable versions of the SDK to third parties, on the internet, or use such executables in excess of the applicable authorized use limitation. If there is a conflict between the terms of this section and the terms of any other section in MLA and License Information Document, the terms of this section will prevail solely with respect to the use of the SDK. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, AND NOTWITHSTANDING ANYTHING CONTAINED HEREIN TO THE CONTRARY, THE SDK IS PROVIDED AND LICENSED "AS IS" WITHOUT ANY WARRANTY OR REPRESENTATION OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR REPRESENTATIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR PURPOSE, AS WELL AS ANY EXPRESS WARRANTIES PROVIDED ELSEWHERE IN THIS AGREEMENT. HCLSOFTWARE WILL NOT BE LIABLE FOR ANY COSTS OR DAMAGES AND WILL NOT INDEMNIFY OR DEFEND LICENSEE TO THE EXTENT SUCH ACTION IS BASED UPON A CLAIM ARISING FROM SDK.

Redistributables

The Program may include third party re-distributable components ("**Redistributable Code**") which Licensee is authorized to install use and redistribute for its own internal business purposes or where permitted and as relevant, as part and in support of Licensee's application. Such use shall be in accordance with any applicable third party license terms and conditions. When Licensee's right to use the Program expires or terminates and unless otherwise agreed to by the Parties in the MLA, Licensee must discontinue use, destroy or promptly return all copies of the Redistributable Code to HCLSoftware.

Source Components and Sample Materials

The Program may include some components in source code form ("Source Components") and other materials identified as "Sample Materials" Licensee may copy and modify Source Components and Sample Materials for internal use only provided such use is within the limits of the license rights under this License Information document and Agreement, provided however that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. HCLSoftware provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND

THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Third Party Data and Services

The Program may contain links to or be used to access third party data services, databases, web services, software, or other third party content (all, "content"). Access to this content is provided "AS-IS", WITH NO WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Access can be terminated by the relevant third parties at their sole discretion at any time. In the event that Third Party Software is included in the Program(s), such Third Party Software is made available to Licensee in accordance with the licenses for such Third Party Software. Licensee may be required to enter into separate agreements with the third parties for the access to or use of such content. HCLSoftware is not a party to any such separate agreements and as an express condition of this license Licensee agrees to comply with the terms of such separate agreements.

Program-unique Terms

Multi-Product Install

The Program is provided as part of a multi-product install image. Licensee is authorized to install and use only the Program (and its bundled or Supporting Programs, if any) for which a valid entitlement is obtained and may not install or use any of the other software included in the image unless Licensee has acquired separate entitlements for that other software.

Components

The following component parts are authorized for use with the Program:

- HCL Domino
- HCL Domino Designer
- HCL Domino IQ
- HCL Domino License Analysis Utility ("DLAU")
- HCL Domino REST APIs
- HCL Nomad for iOS and Android
- HCL Nomad for Web Browsers
- HCL Notes
- HCL Traveler
- HCL Traveler for Microsoft Outlook
- HCL Verse
- InstallShield Tuner for Notes
- Llama Server for Domino IQ
- OnTime Freemium

Any server established under the Program can only be accessed by an Authorized User as well as an HCL Domino Messaging Express Authorized User or as otherwise defined herein.

Authorized use includes that HCL Domino servers may participate in mail routing (SMTP), directory lookup and authentication (LDAP) for any Program, permit access to free/busy time information, and may replicate with any HCL Domino server anywhere.

At HCLSoftware's request, Licensee must present a Domino License Analysis Utility ("DLAU") report to substantiate needed licensed capacity prior to HCLSoftware's acceptance of an Order for entitlement or

Support renewal. DLAU is described here: <https://opensource.hcltechsw.com/domino-license-analysis-utility-DLAU>.

Domino IQ- Domino IQ includes optional functionality that enables the integration of Third Party Software in the form of artificial intelligence (AI). The use of AI is initiated and managed at the sole discretion of Customer and is subject exclusively to the terms and conditions of the respective third party provider. HCLSoftware does not control, monitor or assume responsibility for the operation, outputs or data processing practices of the third party AI.

Domino IQ is provided strictly in accordance with its Program Requirements and compatibility with third party AI is provided on an "as -is" basis without any warranty, support or performance guarantees.

Metric

The following units of measure may apply to Licensee's use of the Program:

“Authorized User”

An Authorized User is a unique person or designated identity having credentials for authenticated access to the Program. The unique person or designated identity is defined by the Domino Directory and any other authentication source used by Licensee (“Authorized User” and “A/U”). Any employee, temporary agency staff, contractor, consultant or service provider requiring access to the Program must be an A/U. In addition, Licensee can assign credentials to a non-employee, a specific job title or role, a specific task or an individual process as an A/U, provided that each non-employee, job role, task or process is separately authenticated as required above. For the avoidance of doubt, if Licensee assigns an A/U to a non-employee, specific job role, task or process, all unique users or designated identities using that ID must also be designated as an A/U. An A/U entitlement is unique to the A/U and may not be shared and may not be reassigned other than for the permanent transfer of the entitlement to another A/U. Licensee must obtain separate, dedicated A/U entitlements for each credential permitting authenticated access. The DLAU tool counts the needed licensed capacity for Licensee’s Program and CCX configuration. In addition to the A/Us, the Program entitlement includes limited access to Domino servers for the below users.

“Guest User”

A guest user can be granted anonymous access, where access to the Program is provided without verification of a user's unique identity (“Guest User”).

“Known Guest”

A known guest user is a non-employee provided with authenticated access with a restricted maximum level of Domino application access (ACL) as reader and permission to write public documents (“Known Guest”).

“CCX User”

In addition, Licensee can obtain separate, dedicated CCX user entitlements for each non-employee provided with authenticated access with a restricted maximum level of Domino application access (ACL) as an editor. CCX users can not be provided access to a personal mailbox. A CCX entitlement is unique, but may be reassigned to another same class user after 30 (thirty) days of inactivity. Dedicated CCX User entitlements are provided on a term basis and must be renewed accordingly (“CCX User”).

None of Licensee's employees are permitted as Known Guest or CCX User. The DLAU tool will include the above users in the needed licensed capacity report.

The Program may be installed on any number of computers or servers and each A/U may have simultaneous access to any number of instances of the Program at one time. If Licensee subscribes to Support for the Program above or other Programs which include one or more of the same Supporting Programs or component parts above, Licensee must subscribe to Support for the full volume of all entitlements for said Programs.
